PROFESSIONAL EXPERIENCE

WordPress and Web Developer

Kodegurus Pvt. Ltd. | 2021 - 2024

- Built and maintained responsive business websites using WordPress, HTML5, CSS3, JavaScript, jQuery and PHP.
- Developed custom WordPress themes, child themes and flexible content sections using Advanced Custom Fields.
- Worked on WooCommerce setup and customisation for business and ecommerce requirements.
- Improved website performance with caching, minification, image optimisation and responsive front-end practices.
- Supported SEO implementation, mobile-first layouts, cross-browser compatibility and production website updates.
- Managed hosting-related tasks including cPanel, FTP, domains, DNS setup and deployment support.

Representative live work: kodegurus.com, printerstechy.com, 800creditnow.com, credencemedicure.com, portal.credencemedicure.com, drharishsharma.com, dietitiashreya.com, fitnessloungegym.com, maximweigh.com, dawnfinancial.in, bajajtravel.com, farmdirect.org.in, xibiti.com, unimartinternational.com, chefscorner.hu.

SELECTED PROJECTS

DripBloc Pro - Premium Printing SaaS

GitHub: <https://github.com/Balvir6200/dripbloc>

- Built a premium multi-category printing platform using Laravel MVC, React, Tailwind CSS and REST-style application structure.
- Designed category-first architecture for print products, subcategories, sizes, templates and design specifications.
- Created admin-side modules for category management, product configuration and print workflow control.

Reader's Realm Library Management System

GitHub: <https://github.com/Balvir6200/readers-realm-library-management>

- Built a full-stack library management system using Laravel MVC, React, Tailwind CSS and SQLite/MySQL.
- Implemented student management, subscription plans, payment tracking, auto-expiry and PDF receipt generation.

- Created a premium admin dashboard for library operations and membership status visibility.

Food Admin Dashboard

GitHub: <https://github.com/Balvir6200/laravel-react-food-admin-dashboard>

- Built a Swiggy-style restaurant admin dashboard using Laravel and React.
- Developed operational views for orders, customers, payments and order status updates.

Lab SaaS System

- Developed SaaS-style diagnostic laboratory workflows including subscriptions, patient dashboard concepts and report handling.
- Focused on multi-tenant structure, billing logic, dashboard usability and database-driven operations.

DATABASE EXPERIENCE

- Designed and maintained PostgreSQL databases using PgAdmin.
- Created 10+ normalised tables following 1NF, 2NF and 3NF principles.
- Wrote SQL queries for data retrieval and reporting.
- Managed user permissions and performed backup and restore operations.
